Title: Development Permit with Variance Application | DP001059 | 11437 Bottom Wood Lake Road
Description: Commercial and Multiple Unit Development Permit with variance for a 6-storey mixed-use development

RECOMMENDATION

THAT Development Permit with Variance DP001059 (Attachment A in the Report to Council dated June 3, 2025) for the property at 11437 Bottom Wood Lake Road (PID 032-357-842), be approved.

EXECUTIVE SUMMARY

An application has been submitted for a six-storey mixed-use development that proposes commercial use at grade with 100 residential rental apartments above. Staff evaluated the Multiple Unit and Commercial Development Permit Area guidelines under the Official Community Plan (OCP) and concluded that this application would be consistent with the applicable Development Permit Area guidelines.

The application requests a variance to the Daylighting Standards within the Zoning Bylaw for the rear and side lot lines. The Zoning Bylaw requires a 65° angular plane be provided for a building 10.0 metres or more to ensure that adjacent parcels have access to adequate daylight. As the application is unable to meet the angular plane minimums, a variance is requested to the southern (side) and eastern (rear) angle of the proposed mixed-use building. Staff note minimal impact would occur to the southern and eastern adjacent parcels.

Staff are supportive of this application.

ANALYSIS

A Multiple Unit and Commercial Development Permit to allow a 6-storey mixed use building on the property located at 11437 Bottom Wood Lake Road (Attachments B and C) has been submitted for Council's consideration. The application proposes 100 residential units (intended as rental units) and 2,543m² (27,380sqft) of commercial retail space. Staff reviewed the Multiple Unit and Commercial Development Permit Area (DPA) guidelines under the Official Community Plan 2018-2038 (OCP) and concluded that this application would be consistent with the applicable DP guidelines.

Commercial and Multiple Unit DPA Guidelines

The Commercial DPA focuses on guidelines to ensure consistent high-quality architectural standards for commercial buildings while the Multiple Unit DPA provides guidelines for multiple unit residential developments in the DLC. Both DPAs are similar in nature and as such have been reviewed collectively.

Site and Building and Structure Guidelines

The proposed site plan and building elevations (Attachment A – Schedules A and B) achieves the objectives of the building and structure guidelines of the DPAs where architectural features reduce the impact of long facades by colour schemes and design materials. Proposed building materials would integrate with the existing neighbourhood and would be consistent with permitted materials of the Commercial and Multiple Unit DPAs. Exterior finishes proposed are white cement, grey brick, wood textured composites and finished and painted concrete. Delineation of the pedestrian realm has been included with painted line markings within the parking lot. The applicant has proposed downcast lighting to ensure no impact to adjacent properties, garbage disposal areas have been provided within the underground parkade, and HVAC would be screened appropriately.

The scale of the proposed building fits well into an area that is transitioning from single-family dwellings to mixed-use and higher-density developments. The building includes a variety of residential unit types (e.g., bachelor to 3 bedroom), thereby providing necessary unit types identified in the District's Housing Needs Assessment. The proposed parking meets the parking regulations of Zoning Bylaw 561, 2007 with a mix of below-grade and surface vehicular and bicycle parking. As the proposed commercial use would require large delivery vehicles, the applicant provided analysis of delivery navigation. Loading bays would be situated to the rear of subject property and delivery vehicles would not impact public sidewalks or right of ways as delivery would occur on the subject property only.

Landscaping

The provided landscape (Attachment A – Schedule C) meets zoning bylaw landscaping requirements and, in accordance with the CD15 zone, no landscaping is required along the side or rear property line. In addition, due to

the limited number of surface parking spaces, the zoning bylaw does not require landscaped areas between the building and parking areas. While the submitted landscape plan meets the DP area objectives and the zoning bylaw, staff would encourage that the developer consider enhancing the site aesthetics and visitor experience through the addition of shade trees around the commercial entrance and bicycle parking area.

Agricultural DPA

The adjacent parcel is zoned A1 – Agricultural and located in the Agricultural Land Reserve (ALR), therefore the eastern portion of the subject property is located with the Agricultural DPA. It is also important to note that the future land use designation of the adjacent parcel is Parkland Conservation.

The intent of the DPA guidelines is to protect local farmland and reduce potential land use conflicts; these objectives are typically achieved through buffering (vegetation or fencing) and separation. In order to meet the objective of reducing potential land use conflicts and to utilize developable land most efficiently, the developer has sited the building in accordance with the 1.2m rear yard setback requirement of the CD15 zone. The proposed building siting, along with the first storey (6.4m/21ft high) concrete wall thereby effectively removes the potential for land use conflicts between the development site and the ALR land. To further reduce potential conflicts, the residential units on floors 2-6 have been further setback from the property line.

Given that the building design reduces potential land use conflicts, and that the OCP future land use designation supports parkland in the future, there is limited rationale to require a vegetated buffer between the properties.

Zoning Bylaw Analysis

The applicant has submitted a proposal that meets zoning bylaw requirements with respect to setbacks, parking, development regulations and landscaping per the CD15 zone as demonstrated in the tables below. The application proposes a total height of 22.0m which is permitted subject to density bonus provisions being provided; the applicant is aware of these bonusing requirements.

The proposal does not meet the Daylighting Standards of the Zoning Bylaw, and therefore two variances are requested as outlined below.

Variance to Daylighting Standards

Section 7.1.2 of the Zoning Bylaw outlines a 65° angular plane requirement which aims to reduce the impact of buildings that are 10.0m/two storeys or more and provide access to daylight for adjacent parcels and public right of ways. As the proposed building is over 10.0m in total height, the daylighting standards of the Zoning Bylaw apply. Staff note that the proposed building does meet the daylighting standards for the north (side) and west (front) building elevations. However, the proposed building would not meet daylighting standards for the south (side) and east (rear) portions of the proposed mixed-use building. As such, this application requests to vary Sections 7.1.2(b) and 7.1.2(c) as noted below and identified in the proposed elevation renderings drawings DPA3.00 to 3.03 located in Attachment A (Schedule B). A visual diagram of the angular plane requirements under s.7.1.2 of the Zoning Bylaw are provided in Attachment D for reference.

Staff are supportive of the requested variance as there would be minimal impact to the southern adjacent parcel as there is an access lane and green space buffer between existing residences and the subject property (Attachment E). Minimal impact would occur to the eastern adjacent parcel.

Variance Request:

Zoning Bylaw s.7.1.2(b):

- **From:** all points along the centre line of the rear lane or the rear boundary line of the lot where there is no lane and inclined at an angle of 65° to the horizontal;
- **To:** all points along the centre line of the rear lane or the rear boundary line of the lot where there is no lane and inclined at an angle of 85° to the horizontal;

Zoning Bylaw s.7.1.2(c):

- **From:** all points along the side lot line and inclined at an angle of 65° to the horizontal
- **To:** all points along the side lot line and inclined at an angle of 82° to the horizontal

Title: Road Closure | RC2024-003 | 1210 8th Street
Description: A Bylaw to close a portion of road, and remove its highway dedication, adjacent to 1210 8th Street for residential use.

RECOMMENDATION

THAT Road Closure Bylaw (RC2024-003) 1253, 2025 be read a first, second, and third time.

EXECUTIVE SUMMARY

The owners' of 1210 8th Street have applied to close and purchase a 73.6 m² section of 8th Street and a 287.5 m² section of Maddock Avenue adjacent to their property (MAP 1).

The owners' house is located at the eastern edge of the property where they would like to acquire a portion of Maddock Avenue to landscape and create a natural privacy screen. The owners' detached garage encroaches slightly onto 8th Street and the proposed purchase would resolve the encroachment. The house and garage would remain non-conforming to the zoning bylaw due to insufficient property line setbacks, which is common for the neighbourhood. BC Hydro infrastructure would remain in the road, outside of the road closure area, however, BC Hydro requires a Statutory Right of Way over the consolidated property for the aerial trespass of its infrastructure. The owners' will be required to consolidate the closed road with their existing lot to form a single parcel and register a Statutory Right of Way in favour of BC Hydro against their property title. The owners are offering \$70,000 for the land including GST (\$66,666.67 + GST).

DISCUSSION/ANALYSIS

There is no vehicle access to Maddock Avenue from 8th Street. Maddock Avenue from 7th Street, provides access to several properties north of 1210 8th Street and a park corridor with walking trail (MAP 2). The land slopes significantly down from east to west creating a side slope such that the walking trail is established away from the proposed road closure toward the property on the opposite side of Maddock Avenue. The owner's desire for increased privacy would not affect trail users.

PHOTO 1 – DRONE VIEW OF PROPOSED ROAD CLOSURE FACING EAST

PHOTO 2 - 8th STREET PROPERTY LINE FACING WEST

PHOTO 3 – ROAD CLOSURE AREA FROM PARK TRAIL FACING SOUTH

DEVELOPMENT POTENTIAL

The existing parcel is 930m². The addition of the closed road would create a parcel of approximately 1,247 m². The minimum parcel size for the existing zoning is 500m² which would allow subdivision although subdivision would require community sewer and the requirement to meet all setback requirements. The increase in parcel size does not affect the ability to construct additional accommodation; a secondary suite in the residence is permitted but an accessory suite in an accessory structure is not permitted.

IMPACTS ON INFRASTRUCTURE, SERVICES OR STAFF CAPACITY

Three properties are accessed from 8th Street beyond the proposed road closure; 1213 8th Street, 11025 Maddock Avenue and 11015 Maddock Avenue. Access to these properties is unaffected by the proposed road closure of 8th Street. The Director of Engineering confirmed that Maddock Avenue between 7th and 8th Street has too much of a side slope to construct a road without providing retaining structures and that there are no plans to develop it further. The District's existing water infrastructure is located outside of the proposed road closure area.

FINANCIAL IMPLICATIONS

Revenue:

The District will receive \$70,000 inclusive of GST for the land which is calculated: 361.1 m² x \$193.85/metre = \$70,000. The funds from the sale will go to the District's Land Reserve.

Expenses:

Legal \$750.00

APPLICABLE LEGISLATION, BYLAWS AND POLICY

Section 40 of the *Community Charter* allows Council, by bylaw, to close all or part of a highway that is vested in the municipality. Section 26 of the *Community Charter* requires notice of disposition to include a description of the land or improvements, the nature and, if applicable, the term of the proposed disposition; the person acquiring the property and the consideration to be received for the disposition.

CONSULTATION

This proposal was internally reviewed by all departments.

COMMUNICATIONS

After third reading, staff will advertise the terms of the proposed sale in the Lake Country Calendar and provide an opportunity for those affected persons to make their views known to Council prior to adoption.

OPTIONS

1. THAT Road Closure Bylaw (1210 8th Street) 1253, 2025 be read a first and second time with amendments as identified by Council.
2. THAT Road Closure Bylaw (1210 8th Street) 1253, 2025 not be read and the file closed.

Respectfully Submitted.

James Robertson, Land Agent

Title: Agricultural Advisory Committee (AAC) Terms of Reference (TOR) | Amendment
Description: Amendment to the TOR to clarify residency requirements

RECOMMENDATION

THAT the Agricultural Advisory Committee (AAC) Terms of Reference (TOR) be amended by deleting and replacing section 4.1. MEMBERSHIP, as shown on the amended TOR, attached to the Report to Council dated June 3, 2025.

EXECUTIVE SUMMARY

Council considered and adopted updated AAC TOR on May 20, 2025. Subsequently, it was found that section 4.1, Membership, does not clearly articulate residency requirements for membership. As such, staff have prepared an amendment that provides clarifying language as follows:

4. MEMBERSHIP

- 4.1. The Committee will consist of no less than seven (7) and no more than eleven (11) voting members that reside within the municipal boundaries of the District of Lake Country, from the following categories:
- (a) at least 5 members that are actively farming within the District of Lake Country;
 - (b) at least 2 representatives ~~members that reside in the District of Lake Country~~ with experience in farming or agriculture, agriculture economic development or sustainability or agriculture water service delivery or conservation.
- 4.2. At least 1 but not more than 2 members of Council as non-voting representative and 1 as an alternate.

Respectfully Submitted.

Title: Hwy 97 to Glenmore Rd Connecting Road Design Budget Allocation
Description: Allocate funding to advance conceptual road design to allow acquisition of the road corridor.

RECOMMENDATION

THAT the 2025 Financial Plan be amended to include \$265,000 for the Hwy 97 to Glenmore Rd Connecting Road Design funded from the Transportation Infrastructure Reserve.

EXECUTIVE SUMMARY

The District is collaborating with the Ministry of Transportation and Transit (MoTT) to start the process of creating the conceptual design of the proposed road connection between Hwy 97 and Glenmore Road. The proposed delivery strategy for this new road has been divided into two main Phases:

- **Phase 1.** Detailed Design and road corridor property acquisition. To be led by the District of Lake Country. Timing – complete by Q4 2025.
- **Phase 2.** Construction. To be led by MoTT. Timing – tbd.

In order to complete the Phase 1 work this year, the District's in-house project design and delivery team needs to be augmented with consulting services consisting of Engineers, Surveyors and Geotechnical Technicians. The estimated cost for these services is \$265,000.

The District controlling the Phase 1 work provides a more expeditious timeframe to deliver a complete design package that MoTT can use to seek construction funding.

FINANCIAL IMPLICATIONS

The funding of \$265,000 will come from the Transportation Infrastructure Reserve and will be offset by recent project surpluses that will be transferred back into this reserve.

Title: Council Procedure Bylaw 1282, 2025 | Meeting Management
Description: Update to Council Procedures Bylaw

RECOMMENDATION

THAT Council Procedures Bylaw 1282, 2025 be read a first, second and third time.

EXECUTIVE SUMMARY

In January 2025 Council began a review of meeting management best practices and potential bylaw amendments that would assist with facilitating productive, inclusive and enjoyable Council meetings. By way of an anonymous survey, Council provided feedback and input on potential amendments which are detailed below and included in the attached draft Council Procedures Bylaw for consideration.

DISCUSSION/ANALYSIS

In the feedback provided, Council indicated the current days (first and third Tuesdays of each month) and evening meeting times were satisfactory, with some minor amendments. Evening meetings allow the public and Council members time to attend meetings after daytime work hours and it was suggested daytime Council meetings may limit the demographic of people potentially considering an elected position.

MEETING TIME AND DATES

It was requested that public hearings begin earlier in the evening at 5:30 p.m. as opposed to the current 7 p.m., and that Regular Council Meetings begin immediately after a public hearing has concluded. In addition, staff should avoid additional meetings on the same date as a public hearing and consider the weight of each item when scheduling Regular Council Meeting agendas. These proposed changes allow the public an opportunity to attend evening meetings after regular work hours, provide additional time to continue regular business following a public hearing and help to ensure meetings do not go past 11 p.m.

The draft bylaw establishes the following Council meeting dates and times:

First and third Tuesday of each month	
4:30 p.m.	Closed (as required)
5:30 p.m.	Committee of the Whole (COW) (as required)
5:30 p.m.	Public Hearing (PH) (as required, no COW if PH scheduled)
7:00 p.m.	Regular Council Meeting (where PH scheduled, immediately following PH)

STRATEGY SESSION / COMMITTEE OF THE WHOLE

When considering Strategy Sessions, preference was indicated for renaming Strategy Sessions to Committee of the Whole (COW) and establishing procedures for COW meetings. COW meetings will generally be held on the same date and time as the current Strategy Sessions, will continue to be open to the public and live streamed and available on the District's website. The procedures established for COW include the ability for Council, if they desire, to make motions that provide a recommendation to Council, that direct staff or that refer matters to Council Committees or advisory bodies.

CONDUCT AND DEBATE

When considering conduct and debate, there was general agreement that procedures should indicate the mover has the opportunity to speak to their motion first, followed by the seconder, if they choose, followed by other members of Council who will be called to speak in the order they requested to speak, as determined by the Mayor. Such procedures are in keeping with Robert's Rules of Order.

Survey results expressed the desire for only clarifying questions to be asked of staff or the applicant with debate and positional statements related to an agenda item, presented either at the time a motion is being moved or seconded, or after a motion is on the floor for debate. This will assist in streamlined and efficient meeting processes. The draft bylaw includes language indicating members may ask clarifying questions of staff or presenters prior to a motion being moved and seconded and that debate or statements will be reserved for when a Member is either moving or seconding a motion, or after the motion is on the floor for debate.

The time limit for permitting members of the public to speak during a public hearing or where public is otherwise permitted to address Council, has been reduced from 10 minutes to 5 minutes with the additional caveat that members of the public may speak a second or third time, only after all others have been given a first opportunity. The time limit for a delegation remains at 10 minutes.

Clarifying language has been added to explain that the public may only address Council during a Regular or Special Council meeting when legislation specifically allows for public input or the right to be heard. Although the bylaw permits Council to hear from the public by resolution, staff recommend Council first seek guidance from the Director of Corporate Services or the Director of Legal Services before doing so. If notice does not indicate that public input will be received, and Council subsequently passes a resolution to allow it, this may result in procedural unfairness. Individuals who chose not to attend, relying on the notice that indicated no public input, would not be afforded the same opportunity to speak as those present and thereby permitted them to do so simply because they were present.

WRITTEN SUBMISSIONS IN RESPONSE TO PUBLIC HEARING

Public hearings provide an opportunity for members of the public to be heard, in person or through written submissions and provide Council the ability to weigh public input when making a decision. Where a public hearing has been prohibited, legislation has removed the opportunity for public input to be considered, both written and oral, with the intent that Council decisions are based on the OCP rather than public input.

The current Council Procedures bylaw permits the receipt of written submissions where for a prohibited public hearing which is contrary to the intent of the legislation and a de-facto way of holding a public hearing and does not provide consistent information to all parties.

To mitigate risk and ensure adherence to the intent of the legislation the draft bylaw establishes that written submissions for a prohibited public hearing will be retained by the Corporate Officer until conclusion of the application which is consistent with the requirement that Council not receive new information after a public hearing has been adjourned. Written correspondence in response to a public hearing that has been waived at the discretion of Council will follow the same process.

APPLICABLE LEGISLATION

Pursuant to section 124 of the *Community Charter*, Council is required to establish the general procedures to be followed by council and council committees in conducting their business. The procedures bylaw is required to establish:

- (a) rules of procedure for council meetings
- (b) rules of procedure for committee meetings
- (c) how resolutions may be passed
- (d) how bylaws may be adopted
- (e) rules for taking minutes of Council and Committee meetings
- (f) rules for certifying minutes
- (g) rules and how advance notice for committees will take place
- (h) where public notice posting places are located
- (i) procedures for an acting mayor
- (j) the first regular council meeting date following an election

A Council Procedures bylaw under section 124 of the *Community Charter* including any amendments, repeals or substitutions, requires notice to be posted for 2 consecutive weeks and must include a general description of the proposed changes. Should Council proceed with readings of the bylaw, notice will be published in the local newspaper for 2 consecutive weeks.

ALTERNATE RECOMMENDATION(S)

1. THAT Council Procedures Bylaw 1282, 2025 be referred back to staff with changes as identified by Council.

Respectfully Submitted

Reyna Seabrook, Director of Corporate Services
