
MEETING TYPE: Special Council Meeting
MEETING DATE: May 9th, 2023
AUTHOR: Kiel Wilkie, Utilities Manager
DEPARTMENT: Utilities
ITEM TITLE: 2023 Water Master Plan DRAFT – Dual Distribution
DESCRIPTION: A discussion about Water Treatment or Dual Distribution

QUESTION:

Is Council satisfied with the current strategic direction of the DRAFT 2023 Water Master Plan or do they require further analysis and discussion.

OPTIONS

For information only

EXECUTIVE SUMMARY

On March 21st, staff presented the DRAFT 2023 Water Master Plan to the Council. Council members provided feedback indicating they needed to discuss the long-term servicing plans for the Winfield Okanagan Centre Water System (WOCWS). In response, staff prepared the attached discussion paper (pages 1-7) and collaborated with Urban Systems to conduct an analysis of dual distribution. The purpose of this upcoming session is to give Council the opportunity to discuss whether they are satisfied with the current strategic direction of the DRAFT plan or if they require further analysis and discussion. The session will also inform Council about the consequences of delaying the adoption of the Water Master Plan.

Respectfully Submitted,
Kiel Wilkie, Utilities Manager

Report Approval Details
